

2010 CDBG HOW TO APPLY WORKSHOPS!!

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

The 2010 CDBG How To Apply Workshops will be held at the times and places listed below. All District entities are encouraged to attend these workshops and consider completing an application for eligible mature projects listed as a high priority on the entity's capital improvements project lists.

 Attendance at one of these workshops is mandatory for any entity to submit an application of its own, or sponsor an application for a sub-recipient (nonprofit agencies, housing authorities, special service districts, etc.).

 Non-Profits, housing authorities, special service districts and other sub-recipients cannot apply directly but must be sponsored by their city or county (which depends on what area the project will cover or serve).

 Attending a How To Apply Workshop also presents an opportunity for potential applicants to learn about the program and how to develop prioritized project lists for future funding cycles.

 The Rating and Ranking policies for the 2011-2012 funding cycle can be downloaded from:
